

High Pressure Test Pump

DIAR 350

Technical parameters:

- Weight: 47Kg
- Tank Volume: 70 Liter
- Max pressure: 5075 Psi (350 Bar)
- Discharge Nozzle Size: ½ Inch
- Size: Length 80cm, High 87cm, Width :46cm

Tester Application:

- Under pressure part
- Under presser valve
- Boiler and pressure vessels
- Industrial pipe line
- Heating pressure system
- Opening the blocked pipe

Accessories:

- Hose Assay's with Coupler ½ in x 1.5m

Advantages:

Easy assembling and dissembling
No need to electrical generator
No need to compressor
1-year guarantee
10 years' warranty
